Presents

MINDFUL INTELLIGENCE REPORT™

WEDNESDAY EDITION - March 13, 2024

editor Paul Collier

(News recap from March 12, 2024 12A ET to March 13, 2024 12A ET)

How beautiful upon the mountains are the feet of him who brings good news, who publishes peace, who brings good news of happiness, who publishes salvation, who says to Zion, "Your God reigns." The voice of your watchmen—they lift up their voice; together they sing for joy; for eye to eye they see the return of the Lord to Zion. Isaiah 52:7-8

SPOTLIGHTS

Of Issachar, men who had understanding of the times, to know what Israel ought to do, 200 chiefs, and all their kinsmen under their command. – 1 Chronicles 12:32

TOP STORY

TRUMP, BIDEN CEMENT NOMINATIONS -

Donald J Trump and Joe Biden are set to repeat the battle of 2020 as both men have now unofficially won enough delegates to clinch their respective parties.

Trump added three more primary wins in Washington, Mississippi, and Georgia, winning each election by more than 80 percent of the primary vote. The news comes on the heels of a recent purge of the RNC by Trump's daughter-in-law, Laura Trump, the new co-chair of the RNC.

FEATURES

CCP-INFESTED COMPANY SETS UP SHOP OUTSIDE MAJOR U.S. MILITARY BASES - A tech firm named Cnano USA has admitted that the company is infested with members of the Chinese Communist Party. That same company is building a new facility in Kansas that is conveniently located near two major U.S. military bases.

The news was revealed with the President of the company, Shawn Montgomery, admitted to having CCP members in his company during his testimony this month before the Kansas House Committee on Commerce, Labor, and Economic Development.

TIKTOK BAN BILL COULD HAVE TROJAN HORSE INSIDE - The U.S. House appears poised to pass legislation that would force TikTok to completely sever all ties with the CCP or else be banned. The problem is the final bill might include a trojan horse that would allow the government to ban ANY social media app congress deems to be a threat to election security, even if they're owned by Americans.

Former President Donald Trump, who once supported a ban (and was working towards that goal) has hedged his bets, but not for the Trojan Horse reason cited above. He said, *"There's a lot of good, and there's a lot of bad with TikTok. But the thing I don't like is that without TikTok, you're going to make Facebook bigger."*

HEADLINES

UNITED KINGDOM HALTS TRANS KIDS' BUTCHER CLINICS - The UK's National Health Service (NHS) has announced it will no longer allow the chemical castration of children as a method of treating gender dysphoria for kids. The reason for the reversal comes from the NHS' claims that *"gender affirming care" works to lower suicide rates or that it doesn't have other "unintended" negative side-effects.*

SPECIAL COUNCIL TESTIFIES BIDEN STOLE TOP SECRET DOCS FOR \$8 MILLION BOOK DEAL - Under oath before the House Judiciary Committee hearing, Special Council Robert Hur testified President Joe Biden took classified documents for the purpose of cash profit.

He told the committee, *"Mr. Biden had strong motivations to ignore the proper procedures for safeguarding the classified information in his notebooks... During hours of recorded interviews in which he read aloud from his notebooks in his private home, Mr. Biden provided raw material to his ghostwriter detailing meetings and events that would be of interest to prospective readers and buyers of his book."*

INFLATION CONTINUES TO PLAGUE ECONOMY - While the White House tells us grocery prices are down under Biden, facts contradict that narrative, including the news that February's inflation rate came in at 3.2%, which is higher than January's inflation rate of 3.1%. The news comes as rumors swirl the Fed is considering rate cuts, something that might be less likely given this new data.

MSM & TRENDING STORIES

FAUCI WARNED BY TEAM MEMBER MANDATED COVID-19 VACCINES WON'T WORK - A member of the team headed by Dr. Anthony Fauci to decide how to handle the then-impending threat posed by Covid-19 responded to Fauci's suggestions of recommending vaccine mandates that such a move would NOT protect Americans but WOULD undermine trust Americans will have for their institutions going forward.

Dr. Matthew Memoli, an epidemiologist, wrote to Fauci, *"At best what we are doing with mandated mass vaccination does nothing and the variants emerge evading immunity anyway as they would have without the vaccine. At worst it drives evolution of the virus in a way that is different from nature and possibly detrimental, prolonging the pandemic or causing more morbidity and mortality than it should."*

100 U.S. SOLDIERS DEPART TO BUILD PORT FOR HAMAS - 100 U.S. Soldiers have departed for Gaza to build a port for the Gazans that is also sure to be used by Hamas. The port is ostensibly being set up as a humanitarian port but military experts have little doubt the port will be used to supply far more than humanitarian aid. The team is expected to arrive within 30 days.

The people who live in Gaza do need humanitarian aid, but getting humanitarian aid to them without aiding the Islamo-fascist group has proven to be difficult in the past, including the recent past. The port seems to be one of the most ineffective ways to provide aid to the victims without also providing aid to the militant faction that controls them.

GOP HOUSE MAJORITY DOWN TO 2 AFTER BUCK RESIGNATION - Ken Buck (R-CO), a known anti-Trumper and Democrat in Republican clothes, has resigned from congress, leaving the GOP with a slim 2-seat majority in the House.

Buck said of his decision, *"I think this place is dysfunctional. For example, I am the number third-ranking member of the Judiciary Committee. I haven't even asked my questions yet. 40-50 people have gone before me. A lot of this is personal and that's the problem. Instead of having to quorum instead of operating in a professional manner. This place has just evolved into this bickering and and nonsense and not not really doing the job for the American people."*

IS RAINBOW SUPPORT FALTERING IN AMERICA? - A new survey from the Public Religion Research Institution shows American support for gay marriage and other legal "protections" for alternative sexual orientations is down slightly, even though solid majorities still support the rainbow agenda. The report shows support for gay marriage is down from 69 percent to 67 percent.

It's too soon to assume this is a trend and not a blip, but this writer is betting that continued insistence by the rainbow cultists that the world conform to them and accept forced acceptance of their lifestyles that goes far beyond the "live and let live" promised before SCOTUS ruled they had a right to get married will see that support eventually evaporate altogether, and the backlash might be worse than what the rainbow community faced before the 2015 SCOTUS ruling.

SHELL PREPARES TO CUT JOBS - Shell Plc has announced plans to cut their deals team staff by at least 20 per-cent to cut operating costs, saying of the decision (through a spokesperson), *"Shell aims to create more value with less emissions by focusing on performance, discipline and simplification across the business. Achieving those reductions will require portfolio high grading, new efficiencies and a leaner overall organisation."*

Through a variety of cost-cutting measures, which includes layoffs, the company hopes to cut operating costs by as much as \$3 billion and by a minimum of \$1 billion, with \$1 billion in cuts already set in place, according to Shell Executive office Wael Sawan.

SCI - TECH WATCH

WORLD BANK, VERIZON CALL FOR NATIONAL DIGITAL ID - In a presentation ostensibly about the digital divide between the haves and the have nots, World Bank President Ajay Banga and Verizon Chairman Hans Vestberg also [called for the creation of a national digital ID system](#), calling it part of the "social contract," a concept first effectively articulated by famous philosopher and early "intellectual" Jacques Rousseau.

In promoting national digital ID, Banga stated, *Private companies shouldn't own that (digital ID system). It is the social contract of a citizen with their country to have an identity, a currency and safety. They should have digital identity and that digital identity should guarantee the privacy of that citizen... I think the way digital is growing right now under AI, it will require a shorter time frame [to complete tasks] and the Bank needs to be focused on that. I think of digital as the breakthrough technology that takes out the arbitrage of the incumbent and enables new ways to reach populations without the traditional challenge of the expense of reaching them for healthcare, education, and everything.*

“Son of man, I have made you a watchman for the house of Israel. Whenever you hear a word from my mouth, you shall give them warning from me. If I say to the wicked, ‘You shall surely die,’ and you give him no warning, nor speak to warn the wicked from his wicked way, in order to save his life, that wicked person shall die for his iniquity, but his blood I will require at your hand. But if you warn the wicked, and he does not turn from his wickedness, or from his wicked way, he shall die for his iniquity, but you will have delivered your soul. ’ Ezekiel 3:17-19
